

Signia

by Gerard McCabe

This love. Your love. It's one in a million if not unique. Together, you make a difference. Together, everything makes sense.

Within Gerard McCabe's exquisite Signia collection, diamond engagement rings nestle perfectly into wedding and anniversary partners with a classic simplicity that allows your love to speak for itself.

Rings in 18ct white or yellow gold accented by diamonds that are individually selected for brilliance, fire and scintillation, Signia captures everything you feel about unconditional love.

Signia – a collection of engagement, wedding and anniversary rings that are made to be together, just like you.
